

Armstrong Flight Research Center Lunar and Meteorite Disk Certification

Please join the NASA Armstrong Educator Resource Center in bringing the Apollo legacy to your classroom by attending the Lunar Meteorite Sample Certification workshop. Learn hands-on activities that can be used in your classroom and give your students access to view and explore some small portions of these “extraterrestrial” materials.

NASA makes actual lunar samples from the historic Apollo missions available to lend to K-12 formal educators upon successful completion of the Lunar Meteorite Disk Certification Workshop.

NOTE: To be eligible for certification, educators must be currently employed at an accredited school as a formal K-12 classroom teacher or a pre-service teacher enrolled at a teaching institution.

WHEN: Saturday, August 20, 2016, 9:30 am – 2:30 pm PT

Location: NASA Armstrong Educator Resource Center at the AERO Institute, 38256 Sierra Hwy., Palmdale, CA 93550

Register Online: <http://goo.gl/forms/SlIPY87fPi>

Questions? Call Sondra Geddes at 661-276-2359 or email at sondra.l.geddes@nasa.gov

There is no charge for the workshop. Free NASA educational materials will be provided. Seats are limited, and will be filled on a first-come, first-serve basis. All participants must be 18 years old or older.
